## Observations... From Around Town

(BY JAY WHOZIT)

Please don't forget, folks, the Red Cross Fund Drive is still on and there is still a lot of work to be done and a lot of money to be collected before our County quota can be met, so if you haven't already done so please send in your contribution today to the solicitor in your neighborhood or mail it directly to Mr. George F. Stevenson, Drive Chairman... Our congratulations to the members of the Stanislaus Boxing Team and their coach, Dick Thames, on their overwhelming victory in the State Tournament last week end, when they walked off with the lightweight, heavyweight, and team trophies for a clean sweep, with a total of 41 points... We doff our hats to those who visited Holly-Bluff-on-the-Jordan, Crump's Gardens, on Saturday and Sunday, in spite of the inclement weather to help the Red Cross, they showed true community spirit... Mrs. Roger Boh, chairman, announced that the Easter Seal Sale began on March 17th and will continue through April 17th... Mr. John Bell, chairman of the temporary committee for the Bay-Waveland Yacht Club, announces that a meeting of all those who made pledges for the new venture will be held on this Saturday night and that officers for the new organization will be elected, and immediate action taken on plans for the new building and yacht channel... Dr. C. M. Shipp, county health officer has announced a schedule of dates on which the mobile x-ray of the State Board of Health, for the control of Tuberculosis, will visit the different schools throughout the County, at which time they will x-ray all high school students and any adults who may be interested... the Capital Times and the Wisconsin State Journal, newspapers of Madison, Wisconsin, on March 5th carried pictures and reports of the victory of the University of Wisconsin boxing team over Syracuse, 5½ to 2½, in which our home-towner, Dickie Curran, former Stanislaus boxer played a major part... Dickie was a favorite here with Stanislaus fans and is proving just as popular at the University of Wisconsin, where he is continuing his collegiate boxing career... do you read the Mayor's column and have you read it this week? Well from what we hear and what the Mayor says it seems that we might expect some increase in revenue from privilege licenses in the near future... well we sure hope the Mayor is right, because who couldn't use a little more revenue?... yes, folks, you really should feel ashamed of yourselves for your lack of interest in the affairs of your town's teenagers... after a few swell guys went to so much trouble to build this youth center and collected enough money to furnish it, it was opened to the public for inspection on Sunday, Monday and Tuesday of this week, and on these three days exactly 21 persons were interested enough to show up, quite a let down, don't you think?... well, you are again invited to an open house at the center tonight, 7 to 9, so be there and see what has been done for your children's welfare.

## MAYOR THANKS DONORS

Once again the people of Bay St. Louis have responded generously to a plea for help. It was announced two weeks ago that the City found itself with no additional funds with which to buy flowers and shrubs for the City Hall grounds and the public was asked to donate azalea plants. As a result of this plea, a sufficient quantity of plants was donated to take care of present needs. Mayor Carver advises us that he has written a letter of thanks.

## Clermont Harbor Methodist Church To Be Dedicated

Miss Irma Kenney, daughter of Mr. and Mrs. Leo E. Kenney of this city who is a student at Louisiana State University was recently initiated into the Alpha Omicron Pi Sorority and 2 weeks later was named vice-president of the sorority. When Miss Kenney was pledged to this A. O. Pi she was presented with the traditional loving cup as the most outstanding pledgee.

This speaks well for Bay St. Louis to have its young people to receive this type of recognition.

## Stanislaus Alumni Midyear Banquet To Be Held Sunday In New Orleans

Large Crowd Expected For the Event; Monsignor Jacobi  
Will Be Principal Speaker

The Midyear Banquet of the Saint Stanislaus Alumni Association will be held this Sunday, March 20, in the Grand Ball Room of the Roosevelt Hotel, beginning at 7:00 P. M. Dr. Marion J. Wolfe, President of the Alumni Association, will preside. Monsignor Jacobi, President of the National Council of Catholic Charities, will be the principal speaker. Others on the program are: Mr. Michael M. Irwin, past president of the Association and Brother Alexis, President of Saint Stanislaus.

It is expected that there will be well over two hundred members of the Alumni Association and friends present for the affair. Brother Alexis announces that a bus—two, if necessary will be used to transport all those from this vicinity who wish to go and do not want to use their cars. All those who wish to avail themselves of this convenience, please communicate with Brother Alexis as soon as possible.

## GOOD ATTENDANCE AT RED CROSS BENEFIT DESPITE RAIN

Despite the continuous rainfall of Sunday quite a number braved the elements and went to Crump gardens. Though the rain prevented many from leaving their cars, yet there were many who did.

The young people there to act as guides through the gardens were Linda Breath, Marianne Cuevas, Patricia Kelley, Sarah Francis Woods, Kay Kramer, Carl Thibault, J. L. Gonzales, Ed Carver, June Breath, Connie McAlpin and Clara Pucheu.

The ladies in charge of the tour, for the benefit of the Red Cross regret the fact of the rain and while they did not realize what had been expected, they do appreciate the good will of those who turned out. It is hoped that the Red Cross will reach its goal without too much work on the part of the chairman and his committee.

Don't wait to be asked to give to the Red Cross. That is a privilege—not a duty. There is one friend who never fails when adversity strikes and that is the Red Cross. Don't forget that when you find yourself giving to this annual fund drive. Today the Red Cross needs your help but who knows tomorrow you may need the Red Cross.

## GRAND JURY REPORT

In the Circuit Court  
March 1949 Term

State of Mississippi  
County of Hancock  
To Honorable L. C. Corban,  
Circuit Judge:

We, the Grand Jury, empaneled for the regular March 1949 Term of the Circuit Court of Hancock County, having concluded our labors, beg leave to make this our final report.

We have been in session 2 days, have examined 14 witnesses, have investigated 5 cases, and have returned 3 true bills.

We have inspected the County Home and we find it to be in fairly good condition; there is still some need of filling in around this property and some minor repairs, such as screens and repairs to the buildings; the property seems to be well kept and in a sanitary condition.

We have inspected the County Jail and we find it to be in good state of repair and well kept.

We have inspected the Court House and find it to be in good condition; all the books and records seem to be in good condition and well kept so far as we are able to ascertain from our inspection.

We have inquired into the condition of the County School properties, such 16th Sections and we find the County Superintendent of Education is exercising due care and diligence in attending to these properties, and the improvement of the school buses and safety condition throughout the County for the protection of our school children.

It has been called to our attention the urgent need of having installed short-wave radio sending and receiving accommodations for the use of the Sheriff and other peace officers in the enforcement of the law, and we recommend that the Board of Supervisors give careful consideration to the installation of such facilities at the earliest possible time.

And now having concluded such investigations that have been brought to our attention, we beg to be finally discharged.

Respectfully submitted,  
A. G. Courge,  
Foreman.

## Mass X-Ray Program Planned For Hancock County; Schedule Outlined

An expanded program of Tuberculosis Control will be inaugurated in Hancock County, March 25th, according to an announcement made at Bay St. Louis by Dr. C. M. Shipp, Director of the County Health Department. Arrangements have been made with the State Tuberculosis Control Unit to have an X-Ray Bus brought here to do the chest x-ray work.

A mass survey will be conducted throughout the entire county and facilities will be provided for every one fifteen years of age and above to have a chest examination.

The primary purpose of this survey is to find early cases of Tuberculosis, however other chest pathology such as heart and aorta conditions, tumors, cancer and so forth will be tabulated and reported.

This service is made without cost or obligation to anyone, it is painless, there is no undressing, and it takes less than a minute to make each picture. All results are confidential and when anything is found the person concerned is notified directly. They may then go to their private physician or the health department, sanatorium or any qualified clinic or hospital for further study.

It is known by the County Health Department that there is a heavy infestation of Tuberculosis in Hancock County. With the mass x-ray service it will be possible to discover these persons who are innocently serving as reservoirs of the germs of this disease, and themselves unknowingly and progressively becoming advanced cases.

This program should challenge the interest and support of every citizen of the County. The success with which any Tuberculosis program can be carried out always depends in a large measure upon this interest and support.

Working plans and a schedule have been made out by Dr. Shipp and his staff, a representative of the State's Tuberculosis Control Unit and local key leaders in the county, whereby everyone in the age group will have an opportunity to take advantage of this service.

E. E. Byeland, County Supt. of Education has arranged for full cooperation of all County Schools, Home Demonstration Clubs, and 4-H Clubs will provide volunteer canvasses under the direction of Miss Alfred, Home Demonstration Agent and the Farm Agent. The Chamber of Commerce is taking an active part in carrying out the program in Bay St. Louis. Letters carrying appointment times will be sent to individuals in outlying areas.

## OUR TOWN

By WARREN J. CARVER

With clerical assistance now provided him, the Commissioner of Finance is finding it possible to make a comprehensive and exhaustive survey and study of that source of the town's revenue derived from the privilege tax levy. The following are excerpts taken from existing laws pertaining to privilege licenses, and the presentation is made as nearly as possible in the language of the layman rather than in legal language. It is hoped that those engaged in any kind of business in Bay St. Louis will read the following as carefully as possible:

Every person required to obtain a license for the privilege of engaging in any business for which a privilege tax is required shall make application for the license in writing to the City Tax Collector. The application shall, in addition to such other information as the Tax Collector may require, show the name and address of the person's, firm's or corporation's, business, the location of the place of business to which the license shall apply, and the nature of the business in which engaged, and any other information the Tax Collector may require. Any person who shall willfully make any false statement in an application for a privilege license shall be guilty of a misdemeanor and upon conviction of such misdemeanor, shall be required to pay as damages double the amount of the difference between the tax paid and that which should have been paid, in addition to the fine and imprisonment imposed. If the Tax Collector, before issuing the license, or at any time thereafter shall have reason to believe that the statements of the business contained in the application are incorrect or false in any material particular, the Tax Collector shall notify the applicant to render such other information as will enable him to determine the proper tax due. After determining the proper tax due, if the license has not been issued, such officer shall proceed to collect the amount of tax due, and if the license shall have been issued under the original application, the Tax Collector shall collect the difference between the sum shown to be properly due, and the sum paid with the original application, and shall issue an additional license thereof which shall expire at the same time as the original. If the taxpayer shall willfully fail or refuse to furnish the information requested by the Tax Collector, the taxpayer shall be liable for damages, and may be proceeded against civilly or criminally, and shall suffer penalties as provided by law.

Any person engaged in more than one of the businesses for which a privilege tax is imposed, shall pay separately the privilege tax imposed for each separate business. If the privilege to be exercised is carried on at two or more separate places, a separate license for each place or location of such business shall be obtained. In all cases where a privilege license has been obtained, and afterwards during the period covered by said license, the owner shall desire to increase his business to a classification for which a higher privilege tax is required, he shall obtain additional license, paying only the difference between the amount paid for the original license and the amount required to be paid for the privilege license on the higher classification.

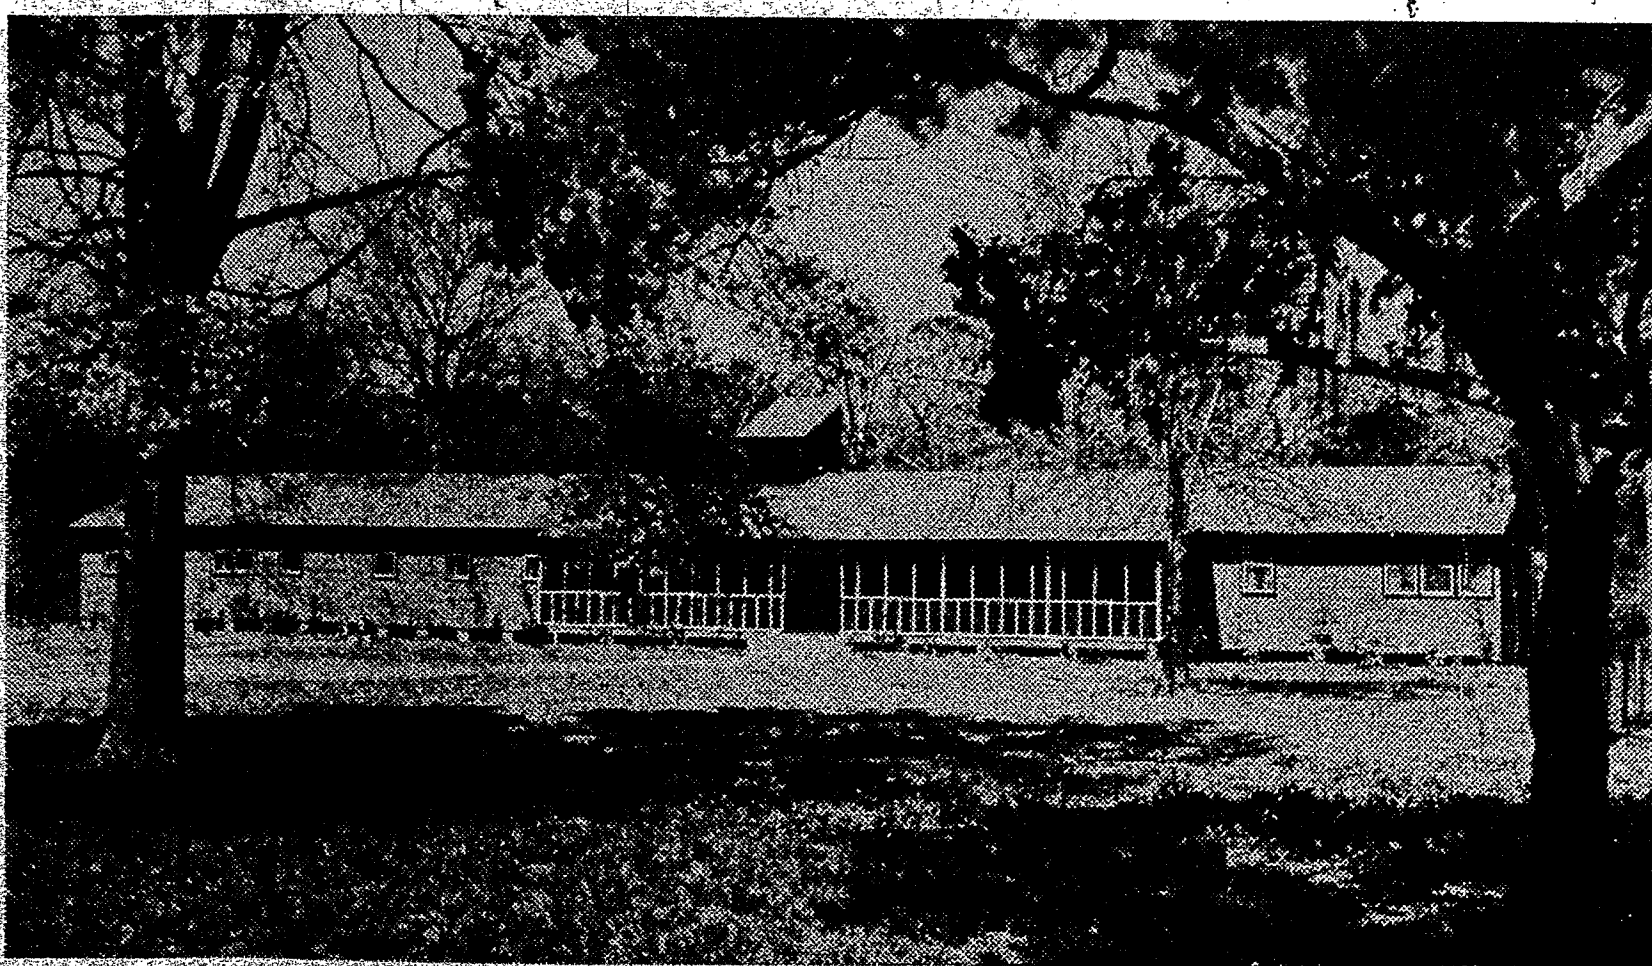

On or before the first day of each month, the Tax Collector shall mail to each privilege taxpayer holding an annual license, and whose license will expire during the following month, a notice that the license will expire, and that a new privilege license must be procured during the following month. Failure to send or receive such notice, however, shall not exempt such privilege taxpayer from any penalties prescribed by law.

Each privilege license issued shall be kept posted in a conspicuous part of the place of business of the person to whom such license has been issued. Where the holder of a privilege license to engage in any business at any definite location in a county or municipality, the tax collector shall after proper application has been made, grant to such person the right to make such move.

The issuance of a privilege license, or the payment of a tax required therefor, shall not make lawful any business, employment, transaction, article or device, or the operation thereof, contrary to any statute of this state, or any ordinance of any municipality thereof.

This column will carry more information next week concerning privilege licenses. The total number only of license issued for each separate business within the corporate limits during the past year will be published as a matter of public information.

## HOW MUCH DO YOUR CHILDREN MEAN TO YOU?

Everyone reads and everyone talks about the big problem facing our city and every city in the nation today—JUVENILE DELINQUENCY. Yes we read and we talk, but what about some action? How much do your children mean to you? Would you like to know where they go when they leave home? Well, the new center is the answer to your problem, but without your support and the support of the community it cannot survive, although a small group of public-spirited citizens saw fit to put in many hours of hard work to make this project a reality. It may cost you a little money for its maintenance and upkeep, but when the amount of good it can accomplish is weighed against the small cost to you, you will realize that your time and money have not been given in vain.

Do you realize that there are few towns or cities which do not have any kind of recreation for their children? We should feel proud to have the beginning of a fine recreational center for our teenagers, and if we cooperate we can eliminate juvenile delinquency entirely in our locality.

Think as your children are thinking today. Just because you did not have these opportunities when you were growing up is no reason to deprive your children today. Come out and help them so that they can learn to help themselves and their children after them, and you will have done something worth being proud of.

The tide is turned, young love survives the test, and all ends well for Bessie and her hero.

The Kindergarten Cuties will charm you with their songs old and new.

## New Plymouth on Display

Plymouth's new special deluxe four-door sedan (above). Throughout the new Plymouth line beautifully streamlined bodies are lower and narrower, seats are wider and headroom greater. At the same time overall exterior dimensions are reduced, but wheelbase has been lengthened to 118 inches and glass area is increased. Horsepower is raised to 97. Although fenders flow gracefully into the body they are detachable for ease in repair.

## New Plymouth Features Beauty, Performance, Safety and Comfort

Brilliant new styling is combined with outstanding riding comfort, increased roominess, and sweeping mechanical improvements in the new line of Plymouth automobiles. Completely redesigned, the new Plymouth has a longer wheelbase for a better ride and more road stability, but less front and rear overhang for easier parking and garaging. While the silhouette has been lowered and the width decreased, there is more head and leg room and seats are wider. Typical of Plymouth's many refinements is the ignition-starter combination, with which a turn of the key starts the engine. The new Plymouths are sleek in appearance. New rear-end styling provides a graceful balance with the horizontal grille lines which emphasize the broadness of the front. Fenders which blend perfectly into body lines are nevertheless separate and detachable, thus avoiding sheet metal panels so costly to repair or replace. The new Plymouth line includes nine distinct automobiles. Special deluxe and deluxe types are on a 118-inch wheelbase, one inch longer than last year's. Special deluxe models are: four-door sedan, club coupe, convertible club coupe and station wagon. In the deluxe group are the four-door sedan and the club coupe. In addition, Plymouth will build three deluxe models on a brand new 111-inch wheelbase; a two-door sedan, a three-passenger coupe, and a new body type, the Suburban. The 97-horsepower engine has improved performance and efficiency with a new design cylinder head which increases compression ratio to 7 to 1. A new chrome plated compression piston ring reduces cylinder wear and provides greater protection during the break-in period. There are improved oil rings for greater oil economy, while a newly-designed intake manifold induces quicker, smoother engine warm-up and produces faster throttle response. Body styling which produces greater passenger room without excessive bulk also increases visibility. V-type windshields have 37 percent more area and provide excellent vision without distortion. Windshield wipers clear 61.5 percent greater area and the rear window is 35.4 percent larger.

## Soil Conservation News

By J. L. Bishop, Soil Conservationist

Mr. D. C. Morris, District Conservationist, from the Work-Group Office, Hattiesburg and Mr. W. C. Young, Nursery Manager, S. C. S. Thorsby, Alabama, visited Hancock County Soil Conservation District, March 3rd to inspect plantings of Kentucky 31 Fescue and Pensacola narrow-leaf grass.

Four of the following Cooperator farms were visited:  
George A. Spiers—Kentucky 31 Fescue planted 1947-1948.  
Otho Rester—Kentucky 31 Fescue planted 1948.

Pensacola narrow-leaf planted 1948.  
J. L. Crump—Kentucky 31 Fescue planted 1948—Pensacola narrow-leaf planted 1947-1948.  
Fred C. Taylor—Kentucky 31 Fescue planted 1948.

Reseeding Crimson Clover were planted with the Fescue, and Bahia grass on George A. Spiers and Otho Rester's farms. While White Dutch clover and Lidino clover were planted on J. L. Crump's farm, White Dutch clover planted on Fred C. Taylor's farm. Reasons for planting the clover with the grasses, to provide for a mixture of grasses and clovers for better grazing and the clover produces Nitrogen on the roots of the plants, which the grass need so badly early spring. However, it was pointed out that the

clovers do not produce enough Nitrogen to supply all of the demand for the grasses. Therefore it is the utmost necessity for the Cooperator to secure Nitrogen and add in sufficient quantities, if he expects to get maximum growth or for maximum seed production. The soil in the district needs an additional fertilizer at this time to make the plants healthy, namely muriate of potash. Without a sufficient supply of potash the grasses will have a tendency to turn yellowish and die at the end of the blades. Lack of potash can be noticed in clovers by noting the parched yellow and purple colored leaves. Therefore if the farmer desires a maximum return from these grasses, the following application of Nitrate and potash are recommended to be added in February, in addition, to the 800- pounds of 5-10-5 or 800 pounds of 6-8-8, which applied before planting last October; 300 pounds 16% Nitrate and 200 pounds 50% Muriate of potash. The farmer may expect a reasonable increase in growth and seed production if the Nitrates and potash are added by the middle of March. If the farmer will add these fertilizers during February he can expect at least 300 pounds of seed per acre on two-year old plots. If the farmer prefer to graze the grasses

## Savings Bonds Sales Increase In Hancock County

February sales report released by the Savings Bonds Division for Mississippi shows that purchases of E, F and G Bonds are \$3,441,364. This figure exceeded February sales of 1948 by more than a quarter million dollars.

The report also stated 45 counties have had more bonds purchased in January and February, 1949, than they had for the same period in 1948. Mr. Leo G. Ford, Chairman of Hancock County, said, "I am glad to know that our people have kept our county on the upward trend, and asked that everyone buy all the bonds possible."

## American Legion Auxiliary Meets

The American Legion Auxiliary met on Monday night at the home of Mrs. Anthony Trapani with Mrs. Ida Telhiard and Mrs. Henry Capdepon as co-hostesses.

Plans were discussed and adopted for the Bingo Game for the Red Cross Fund Drive.

In the absence of the president, Mrs. W. J. Carver, the meeting was presided over by Mrs. G. C. Romahoff.

instead of producing seed he may reasonably expect to graze twice as many animals per acre, which is a solution to many farmers in the District with small available pasture acreage. If seed production is desired, then it is absolutely necessary to remove all livestock by end of February.

Kentucky 31 Fescue is a winter grass and may be grazed until summer, that is, if the farmer does not care to harvest seed for additional grazing. Each farmer planting grass for better pastures will make a mistake if he does not include both of these grasses on his farm.

#### The News of the Little Theatre

Tryouts for "My Sister Ellen" will be held on Monday night, March 21st at the Little Theatre building at 8:00 P. M. This play requires a very large cast and due to unfortunate circumstances is being cast a little later than originally anticipated, so we are taking this means to urge anyone interested in a role to be on hand, as parts will be assigned at this casting. The play is gay sparkling comedy, and will provide lots of fun for those participating. There are roles for four young women, and two older ones! About fourteen men are required to complete the cast, however, several of the roles may be doubled as there are no very long individual roles; most of the dialogue consists of every day short line conversation that will not require long hours of study to master, so we are sincerely hoping that all who love to take part in the theater plays will come Monday night. Remember that it is not essential to be a member of the Theater to try out for roles.

From Lt. Wm. Freeman comes word that the current play of "Ten Little Indians" is progressing very rapidly, and he and his cast are most enthusiastic and promise excellent entertainment for all those who will view the performance.

To all members who have not as yet renewed their membership remember that this is the middle of March, and it is sincerely hoped that checks will be mailed in to Mrs. John Bell, membership chairman, so that your cards may be mailed back to you in time for the coming production. Anyone who has not joined the theater in the past and wishes to do so now, may also mail their checks to Mrs. Bell.

## T. T. Robin Addresses Rotary Club; Gives Statistical Information About County

T. T. Robin, president of the Hancock County Chamber of Commerce was guest speaker at the Rotary Club luncheon last week and gave a most interesting list of facts concerning our county which should be interesting to the general public.

### COUNTY AGENT NOTES

Fly control recommendations for 1949 were announced recently by L. C. Murphree, Extension Entomologist. Where DDT was satisfactory last year, it will be the first choice again due to the length of control and because it is probably the cheapest material.

The rate for using DDT is one pound, or about a quart jarful, of 50 percent wettable powder to three gallons of water.

Walls and ceilings of barns and other outbuildings should be thoroughly wet with the DDT spray. Sanitation should be practiced along with the spray program.

Control of flies by DDT was not satisfactory last year in some localities, which may be due to the flies building up a resistance to DDT.

Youth Center 1; Little Theatre, 1; Boating, Fishing—fresh and salt. Hunting—small game; Church summer camps, 6.

This is a fine report on the county in which we live and makes good reading for the present generation. Clip this from your paper and file it away for future reference. Mr. Robin is to be complimented on this report. Mr. Robin says, "Buy, Build and Boost your city and county."

### PRIVACY IN YOUR OWN ROOM

### PROTECTION IN AN EMERGENCY

### SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

Where this occurred, materials listed in the following order of preference are recommended:

Methoxychlor, or marlate, is a "cousin" of DDT. It usually has a quicker killing effect than DDT, but does not last quite as long.

The marlate spray recommended is a two percent spray made by mixing one pound, one quart jarful, of 50 percent methoxychlor or marlate powder to three gallons of water. Spray walls and ceilings of outbuildings in the same manner as using DDT.

It is safer to use marlate than DDT around dairy barns and on dairy cattle, according to the U. S. Food and Drug Administration.

For horn fly control, use one cupful, one-fourth pound, of 50 percent marlate wettable powder to three gallons of water. At present prices, this material will cost more than DDT.

Gamma benzene hexachloride wettable powder, used as one pound of the six percent powder to three gallons of water will give satisfactory control of flies that have built up a resistance to DDT. If a 12 percent gamma benzene hexachloride is used, mix one half pound, two cupfuls, to three gallons of water for barn spraying.

Chlordane, used at the rate of one pound, four cupfuls, of the 50 percent wettable powder to three gallons of water will also give satisfactory control where flies have built up resistance to DDT.

### Showing Dairy Animals

With the spring shows taking place 4-H members showing dairy animals can practice a few simple things to help the shows run smoothly and their entries to appear to good advantage.

tage, states Arlis Anderson, associate Extension dairyman.

Check registration papers to be sure the animal is properly registered, transferred and tattooed. Be sure to take registration papers to the show.

Have a neat uniform to wear while showing the animal.

Arrange for both lead and tie halters. Accustom animal to being tied or hitched.

Get the animal used to drinking from a pail rather than from a pool which cannot be taken to the show. It is important to take the pail from which she has been drinking to the show.

Well in advance of the show, find out the time of day the show will take place, and water the animal so

she will be thirsty at the right time. Arrange for necessary health certificate.

Work out details of transportation, feeding and bedding.

When the show day arrives, enter the ring promptly when the class is called. Animals entering the arena late not only take unfair advantage of others, but cause the show to drag.

Practice good sportsmanship first, last and always. If one's animal does not show at the top of the class, be quick to congratulate owners of top animals. Be modest when winning.

Yes, Black-Draught may help that dull, dopey feeling if the only reason you feel that way is because of constipation. There will be a music and magic show at the Clermont Harbor School on Saturday, March 19 at 7:30 P. M., by the Mothers Club. Proceeds will be spent on more new seats for the school auditorium.

On Saturday, March 26 at 7:30 P. M. there will be a cake walk at the Clermont Harbor School.

This is the Bunny Babbitts collection for his visit to the Clermont Harbor School children.

A meeting was held at the school house at 8 P. M. on Friday, March 11th for the purpose of selecting a committee to supervise the rebuilding of the Catholic Church.

The following members were appointed:

W. L. Wesner, chairman; Mrs. A. Carrick, J. G. Treutel, A. Garcia and Mrs. H. L. Wesner.

Power was given the committee to appoint additional members on the committee.

Rev. Father Costello attended the meeting and suggested two plans of rebuilding. 1. To borrow addition funds and together with funds on hand, complete the church inside and outside. 2. To use the funds on hand and rebuild what will be possible which will be principally the outside and complete the inside as funds become available.

The committee adopted the No. 2 plan.

It was decided to confine the bids for rebuilding to Clermont Harbor. The committee authorized Mr. A. Garcia to advertise for bids and allow 15 days for all bids to be sent to the committee.

The bids will be carefully checked at the next meeting and upon accepting the lowest bid the committee hopes to have work started in the near future.

## Stanislaus Takes Lightweight, Heavyweight And Team Trophies In State Boxing Tourney

The St. Stanislaus Rockchaws, pre-tourney favorites to take team honors in the state boxing tournament held in Bay Hi Gym last weekend, disappointed no one and walked off with six individual state championship trophies, the light weight and heavy weight trophies, and the state team trophy.

The Rocks were leaders all the way, putting nine hopefuls into the finals, to come up with a team total of 41 points. Their nearest rival was Belzoni with 28 points. Bay High totaled 10 points, Demonstration 24 points, GCMA 6, and Brooklyn AHS 6.

The 1949 Tournament was the best seen in many years, with most of the scraps being real crowd pleasers.

An estimated 5,000 people saw the three nights of boxing.

80 lbs.—Cole, Bay High over Calhoun, Demonstration.

90 lbs.—Phillips, GCMA over Cos-pelich, Bay High.

95 lbs.—Stimmet, Stanislaus over Grice, Belzoni.

J. V. Morreale of St. Stanislaus, and Harry Miles of Bay High were awarded the Breath Medals for most consistent training during the season. Miles was unable to participate in the tournament because of illness.

Officials for the meet were W. L. Green, T. N. Tucker and Eddie Colbert, referees and judges; C. A. Breath timekeeper.
